PROFESSIONAL SUMMARY

Self-taught senior developer, 9+ years (since 2017), 50+ shipped production projects — mobile apps in Flutter & React Native, ERP/POS systems in C#.NET and Python. Focus: clean architecture, state management, UI/UX, fast maintainable delivery.

CORE TECHNICAL SKILLS

Mobile: Flutter & Dart, React Native, BLoC/Provider, Native Platform Channels, Play Store & App Store releases

Backend & Data: Node.js, Python, Firebase, PostgreSQL, SQLite, REST APIs, OAuth2

Web & Automation: React.js, HTML5/CSS3/JS (ES6+), Selenium, browser automation & scraping

Systems & Business: C#.NET, ERP/CRM, POS, GPS live-tracking, offline-first & cloud sync

Design & Tools: UI/UX, Figma, Prototyping, Git

Specialized: Telegram bots, algorithmic trading (Pine Script, MQL5), SMC/ICT, networking fundamentals

EXPERIENCE & SELECTED PROJECTS

Freelance Software Engineer — Abathr Digital Solutions

2017 – Present | Basra, Iraq (Remote)

- Full product owner on 50+ delivered projects: requirements, UI/UX, development, deployment, maintenance.
- Logba** (*logba-ded0a.web.app*, 2024–Present) — logistics platform: Google auth, multi-role dashboards, live shipment tracking, weight confirmation, CSV export, staff permissions. Firebase.
- Taxi Fleet Management System** — rider/driver Flutter apps + Node.js admin dashboard, real-time GPS, live maps, auto fare calculation.
- Cloud POS & Accounting System** — C#.NET/SQLite sales suite: barcode inventory, invoicing, profit reports, tax compliance, offline-first sync.
- Delivery & Logistics Platform** (Flutter + Python, market-ready, Iraq) — proximity-based captain assignment, live courier GPS, owner analytics, PostgreSQL.
- E-Commerce & Web Systems** (2023–Present) — Alkhalifa Store, Dr. Nazik Clinic Portal, GT Store, School Management System, Game Asset Marketplace.

EDUCATION & CERTIFICATIONS

[CS302: Software Engineering](#) (Saylor University, 2026) • [CS50: Intro to Programming with Python](#) (Harvard) • [JavaScript I](#) (Saylor Academy) • [Networking Basics](#) (Cisco) • [Intro to C++](#) (SoloLearn) • [Google Display & Video 360](#) • [Responsive Web Design v8](#) (freeCodeCamp) • [Foundational C# with Microsoft](#) (freeCodeCamp & Microsoft, 2026)

WHY ME

Clean, scalable code with consistent architecture and state-management patterns. Shipped to App Store and Google Play; comfortable with native modules and build configs (Xcode, Gradle). Focused on security, performance, and clear documentation. Fluent Arabic; working written English for code, docs, async communication.

INTERESTS & PERSONAL

Home fitness & workouts • Reading (one new idea or goal every day) • Strategy & simulation gaming • Fishing • Valid driving license
